

### MAIN FEATURES

Germanium glass window

Indoor / Outdoor installations

Side opening, easy camera servicing

Weatherproof standard IP66/IP67

Different mounting options: standard bracket, cable management bracket or P&T

### DESCRIPTION

The HTV housing, equipped with a Germanium glass window has been designed for thermal imaging camera installations and ensures total protection against all environmental conditions.

The clear Germanium glass composition covers transmission from 7.5 to 14µm IR range with the best optical quality. The window dimension allows the installation of thermal imaging cameras with a 9.2mm/45° lens.

Thanks to the side opening, the accessibility to the camera, to the lens and to all its connections is made far easier.

Its weatherproof feature is ensured by neoprene-rubber gasket and 3 cable glands.

The body is constructed from aluminium and the sunshield from ABS material.

The HTV offers various mountings modes: wall or ceiling brackets, standard or full cable management brackets, or Pan & Tilt heads.

Wide range of accessories available: sunshield, heater, camera power supply and alarm tamper switch.

The accessories are supplied as a simple plug-in kit for easy installation or factory-installed.
